

MUHAMMAD HANZALA KHAN

SOFTWARE DEVELOPER

ABOUT ME

Highly motivated and detail-oriented Full-Stack Web Developer with a strong foundation in building scalable, responsive, and user-centric web applications. Proficient in modern backend technologies like C# .NET (ASP.NET Core MVC), PHP (Laravel), and frontend design using Bootstrap and JavaScript. Experienced in database management and end-to-end system development. Passionate about writing clean, efficient code and transforming complex business requirements into seamless digital solutions.

EDUCATION

- **Advanced Diploma in Software Engineering (ADSE) 2024-Present**
Currently pursuing an advanced diploma at Aptech Computer Education (4th Semester). The program covers full-stack web architectures, advanced software engineering practices, and modern coding frameworks.
- **Diploma & Certificate in IT (D.I.T / C.I.T)**
Completed D.I.T and C.I.T from Memon Industrial & Technical Institute (MITI), gaining a strong foundational knowledge of core computing, database management, and essential software applications.
- **Intermediate (Computer Science) [present]**
As a Computer Science Teacher for Grades 4 to 9, I design and deliver engaging lessons that simplify complex technical concepts and programming logic for young learners. I conduct practical lab sessions to provide hands-on software experience and regularly assess student progress to improve learning outcomes.

EXPERIENCE

- **Smart Brains School 2025-Present**
As a Computer Science Teacher for Grades 4 to 9, I design and deliver engaging lessons that simplify complex technical concepts and programming logic for young learners. I conduct practical lab sessions to provide hands-on software experience and regularly assess student progress to improve learning outcomes.
- **Freelance Software Developer 2024-Present**
Operating as an independent developer, I design, build, and deploy responsive full-stack web applications tailored to client needs. Utilizing C# .NET (ASP.NET Core MVC) and PHP (Laravel) for robust backends alongside Bootstrap and JavaScript for interactive frontends, I manage end-to-end development, optimize databases, and deliver high-performance digital solutions. Additionally, for budget-conscious clients, I integrate Google Sheets as a cost-effective and efficient database alternative to streamline their data management.
